*When Communication Really Counts!*

Valcom, a world leader in providing the highest quality talkback intercom and loudspeaker paging systems, introduces the Valcom MultiPath™ Intercom System specifically designed to meet the sophisticated communication needs of the educational market.

Schools offer a unique communication challenge. Valcom MultiPath™ systems offer high quality internal communication and a multitude of features that are easily configured to suit the most advanced requirements. Valcom MultiPath™ Intercom systems include user-friendly administration software that allows schools to easily manage the changing needs of the voice communication system – whether the needs change daily, weekly, monthly, or annually! System configuration is easily tailored to a particular buildings specific need or to the entire facility need for quick and fast adjustments to schedules, department moves or room changes.

Valcom MultiPath™ Intercom System provides the ultimate in cost saving installations by utilizing the existing telecom/datacom infrastructure (CAT 3/5/5e/6). System expansion, flexibility and reliability are added benefits to using existing cable which makes Valcom MultiPath™ the only communication system of choice!
